

Provisional key to the British *Xenophytomyza* species

- 1. Costa ending between veins R₄₊₅ and M₁₊₂ 2
 - Costa reaching strongly to vein M₁₊₂ 3
- 2. Wings conspicuously pale, milky-white; distiphallus with distinct 'break'
..... *C. (X.) vinokurovi*
 - Wings normal, hyaline; distiphallus unbroken *C. (X.) atronitens*
- 3. Ultimate section of vein M₃₊₄ at most 1 ½ times that of penultimate; distiphallus straight,
broken..... *C. (X.) venturii*
 - Ultimate section of vein M₃₊₄ more than 1 ½ times that of penultimate; distiphallus with
distal tubules strongly up-curved *C. (X.) biseta*
